

# DWAINE PIPE'S TOP TIPS ON HOW TO AVOID A BLOCKED DRAIN

Keeping your drain clear is easy,  
just follow these tips from Dwaine.

## IN THE BATHROOM DWAINE EATS TOILET PAPER, PEE AND POO.

He doesn't eat wipes, nappies, cotton buds and other bathroom waste. Pop bathroom waste into a bin and you can save yourself the time, cost and experience of clearing a blocked drain.

**Top tip:** Items that claim to be 'flushable' such as cleaning wipes and make up wipes can block your drains, it's best to always put these in the bin.

## IN THE KITCHEN KITCHEN SINKS ONLY LIKE CERTAIN DRINKS

You might not know this but oil, fat and grease should always be put in a bin, not down the sink. Greasy liquid hardens as it cools down and can block your drain, causing a nasty smell.

**Top tip:** Scrape your plates and pans into a bin before rinsing them.
