- 5 (6a) more activities for all ages including visitors
- 6 (9) Youth provision (multi agency)

Transport

- 4 (6c) Review and possible expend the nipper service

Summary

Public were split into 4 groups but no record was made of the numbers on each group nor the mix of each group
As only 18 people were present one can only assume that groups were split into 4 or 5 per group.

Three of the groups only provided 6 priorities - these groups are identified as 6a, 6b and 6C

One of the groups provided 9 priorities, this group is identified as 9

Environmental issues were raised as a priority on 6 occasions; being ranked in the top 3 priorities of 3 groups

Events were raised by 2 groups and again was in the top 3 priorities

Communication was raised 7 times by 2 of the groups

Tourism/regeneration was the only topic to be identified by all groups, including being the whole focus of one group with all 6 priorities towards regeneration

Transport was raised by 1 group but was not their top priority.

All groups were asked what their long term vision for Newbiggin was and how to achieve it, this is quite an open question.
